EMBASSY OF ISRAEL  
HANOI

Ngày 12 tháng 12 năm 2016

Số: EI.02.12.16

Đại sứ quán Israel tại Hà Nội trân trọng kính chào Trường Đại Học Nông Lâm Thành Phố Hồ Chí Minh và xin hân hạnh được gửi kèm theo đây thông tin về Khóa học Quốc tế tại Israel về Quản lý dịch hại tổng hợp (Integrated Pest Management) do Cơ quan Hợp tác Quốc tế, Bộ Ngoại giao Israel (MASHAV), Trung tâm hợp tác phát triển nông nghiệp Quốc tế, Bộ Nông nghiệp và Phát triển Nông thôn Israel (CINADCO) và Cơ quan Nghiên cứu Nông nghiệp, Bộ Nông nghiệp và Phát triển Nông thôn Israel (ARO) cùng với Viện Bảo vệ cây trồng Israel phối hợp tổ chức từ **19/03 – 07/04/2017** dành cho các cán bộ làm việc trong lĩnh vực quản lý dịch hại trên cây trồng.

Toàn bộ chi phí ăn ở đi lại, học tập tại Israel sẽ do Bộ Ngoại giao Israel tài trợ. Vé máy bay do phía Việt Nam tự chi trả.

Mọi chi phí liên quan đến khóa học bao gồm học phí, chi phí đi lại tại Israel, tiền ăn ở sẽ do chính phủ Israel tài trợ. Tiền vé máy bay hai chiều Việt Nam – Israel sẽ do cơ quan cử học viên hoặc học viên tự chi trả.

Yêu cầu ứng viên có kinh nghiệm ít nhất 3 năm, có bằng chuyên ngành, tiếng Anh tốt. Đính kèm là chi tiết khóa học. Mẫu đơn được đăng tại <http://bit.ly/applyform16>. Ứng viên sẽ được mời phỏng vấn.

Hồ sơ tham dự xin gửi về Đại sứ quán Israel tại Hà Nội, 68 Nguyễn Thái Học. Hạn nộp hồ sơ: **16/01/2017**

Để có thêm thông tin, xin vui lòng liên hệ: chị Nguyễn Bảo An, Ban Hợp tác Quốc tế, Đại sứ quán Israel, điện thoại 04.38433140 (số máy lẻ 511), di động 0913 213 114, fax 04.38 433141 hoặc email [mashav@hanoi.mfa.gov.il](mailto:mashav@hanoi.mfa.gov.il)

Đại sứ quán mong sớm nhận được phúc đáp của Quý trường.

Nhân dịp này, Đại sứ quán Israel tại Hà Nội xin gửi tới Trường Đại Học Nông Lâm Thành Phố Hồ Chí Minh lời chào trân trọng.

**International Course:**

## **Integrated Pest Management**

**In cooperation with the Institute of Plant Protection**

**March 19<sup>th</sup> – April 7<sup>th</sup>, 2017**

## About the Course

<b>Background</b>
<p>It is widely accepted that synthetic pesticides pose a real threat for the global environment, including human health. Moreover, reduction in their efficacy, as well as increase in the cost of their development and use, serves as a strong stimulus for the development of environmentally compatible and sustainable pest control measures.</p> <p>Integrated Pest Management (IPM) is a scientific paradigm that has now achieved global interest and recognition. IPM focuses on designing and implementing pest management practices that meet the needs of growers, consumers and relevant government agencies in reducing pest-associated damage while preventing the long-term risks of environmental pollution, hazards to human health and reduced agricultural sustainability. Ideally, IPM requires both preventative and therapeutic strategies for each crop area wide, taking into consideration the main effects on the ecosystem. Therefore, the integration of information on pests and pathogen biology and the innovative safe approaches to reduce the use of environmentally harmful pesticides are imperative for a successful IPM control.</p> <p>Intensive research has already resulted in successful implementation of IPM approaches in protecting fruit and vegetable crops in Israel.</p>
<b>Aims</b>
<p>To address new developments in the field of plant protection, to provide the most recent IPM tools, to practice IPM strategy considering the adaptability of methods and technologies to meet local conditions and to establish links with Israeli scientists, with a broader view for future cooperation.</p>
<b>Main Subjects</b>
<p>Key pests and pathogens; Control measures – with an emphasis on biological and bio rational methods using innovative chemistries, chemical ecology and physical means; Improvement of crop protection by genetic tools; Incorporation of IPM techniques, principles, and their economic advantages; Integration of extension services with research to foster IPM implementation; Planning IPM programs in specific agricultural systems.</p>

## Application

### Application Requirements

This course is designed for professionals from governmental institutions, universities and research institutes, private companies and non-governmental organizations involved in agricultural research and/or extension programs. Course participants must have a relevant academic degree and at least three (3) years of practical work experience in related fields. A very good command of the English language and office computer programs skills are essential.

### Application forms

Application forms and other information may be obtained at the nearest Israeli mission or at MASHAV's website: <http://mashav.mfa.gov.il/MFA/mashav/Courses/Pages/default.aspx>

Completed application forms, including the medical form, should be sent to the relevant Israeli mission in the respective country and to CINADCO's R&D Department in Israel [sigalp@moag.gov.il](mailto:sigalp@moag.gov.il), by or before January 22<sup>nd</sup>, 2017.

## General Information

### Arrival and Departure

Arrival date:	March 19 <sup>th</sup>
Opening date:	March 20 <sup>th</sup>
Closing date:	April 6 <sup>th</sup>
Departure date:	April 7 <sup>th</sup>

Participants must arrive at the training center on the arrival date, and leave on the departure date. Early arrivals/late departures if required, must be arranged by the participants themselves, directly with the hotel/center, and must be paid for by the participant him/herself.

### Location and Accommodation

**MASHAV** awards a limited number of scholarships. The scholarship covers the cost of the training program including lectures and field visits, full board accommodation in double rooms (two participants per room), health insurance (see below) and transfers to and from the airport. Airfares and daily allowance are not included in the scholarship.

### Health Services

Medical insurance covers medical services and hospitalization in case of emergency. It does not cover the treatment of chronic or serious diseases, specific medications taken by the participant on a regular basis, dental care and eyeglasses. Health authorities recommend that visitors to Israel make sure they have been inoculated against tetanus in the last ten years. Subject to the full binding policy conditions. Participants are responsible for all other expenses.

The course will be held at **the Volcani Agricultural Complex**, situated **10 km east of Tel Aviv, Israel**. Participants will be accommodated at **City Prima Hotel** in double rooms (two participants per room).

## About MASHAV

MASHAV – Israel's Agency for International Development Cooperation is dedicated to providing developing countries with the best of Israel's experience in development and planning. As a member of the family of nations, The State of Israel is committed to fulfilling its responsibility to contribute to the fight against poverty and to the global efforts to achieve sustainable development. MASHAV, representing Israel and its people, focuses its efforts on capacity building, sharing relevant expertise accumulated during Israel's own development experience to empower governments, communities and individuals to improve their own lives. MASHAV's approach is to ensure social, economic and environmental sustainable development, and is taking active part in the international community's process of shaping the Post-2015 Agenda, to define the new set of the global Sustainable Development Goals (SDGs).

MASHAV's activities focus primarily on areas in which Israel has a competitive advantage, including agriculture and rural development; water resources management; entrepreneurship and innovation; community development; medicine and public health, empowerment of women and education. Professional programs are based on a "train the trainers" approach to institutional and human capacity building, and are conducted both in Israel and abroad. Project development is supported by the seconding of short and long-term experts, as well as on-site interventions. Since its establishment, MASHAV has promoted the centrality of human resource enrichment and institutional capacity building in the development process – an approach which has attained global consensus.

## About CINADCO

The Center for International Agricultural Development Cooperation (CINADCO) is a part of the Israel Ministry of Agriculture and Rural Development. Since 1958, CINADCO has been in charge of the International Agricultural program conducted by MASHAV in Israel and abroad. CINADCO's activities consist of: International and country "tailor-made" courses in Israel, on-the-spot courses, long- and short-term projects and advisory missions. Israeli experts have also been sent to different locations around the world to conduct projects and to share their expertise in various aspects of agricultural production, extension and project planning. ## About ARO

The Agricultural Research Organization (ARO) is the research arm of the Ministry of Agriculture and Rural Development and is responsible for most of the agricultural research conducted in Israel. The scientists of the ARO collaborate with the regional R&D Stations and with the Agricultural Extension Service of the Ministry of Agriculture. Research at the ARO aims to improve existing agricultural production systems and introduce new products, processes and equipment on which Israel's future agricultural efforts will be based. ARO website: <http://www.agri.gov.il/en/departments/118.aspx>
